### **EARTH TREMORS – PUBLIC SHOULD REMAIN CALM**

Today, 12<sup>th</sup> December 2022, citizens of Accra, Kasoa and their environs have experienced two (2) Earth Tremors in the morning and around 11:55 a.m.

NADMO is working closely with the Ghana Geological Survey Authority (GGSA) to obtain the exact details of tremor including the magnitude and epicentres.

The public will be duly informed of any development.

The tremors were not damaging and there is no reported destruction of lives and properties.

NADMO calls on all citizens to remain calm. They are encouraged to go about their normal duties.

Home owners in affected areas are encouraged to inspect their buildings for possible cracks and seek technical advice from Engineers and other building experts.

Information sharing is important but let's be mindful of the kinds of information we absorb on social media in order to be safe and go about our duties without fear and needless panic.

Thank you.
