

PRESS RELEASE: UPSA RESPONDS TO VIRAL VIDEO

FOR IMMEDIATE RELEASE:

Accra: 05-04-23 – The attention of the Management of the University of Professional Studies, Accra, has been drawn to a video making the rounds on some social media platforms about an altercation at the hostel.

An Investigation Committee has been set up by the University. Our preliminary investigation has revealed that the culprit is in a special non-tertiary programme in preparation for an external professional examination. Upon completion of the investigation, all responsible persons will face the full rigor of sanctions.

The University currently has more than 20,000 students who are committed to their studies and follow the University's Code of Conduct diligently.

The behaviour exhibited in the video goes against our Code and does a disservice to the majority of UPSA students who uphold the values of respect and professionalism for which UPSA is known.

The University's Code of Conduct, to which all our students subscribe, remains the document that drives student behaviour and conduct at UPSA. Students who violate the Code face disciplinary proceedings.

UPSA is proud of its tradition of scholarship with professionalism, which has resulted in the University producing several distinguished alumni currently making immense contributions to the development of Ghana.

Management remains committed and focused on producing graduates capable of addressing the many global, regional and national challenges all nations face today.
