

GHANA WATER LTD

PUBLIC ANNOUNCEMENT

FOR IMMEDIATE RELEASE
ATTN: NEWS EDITOR

DATE: 20TH FEBRUARY 2024

INTERMITTENT WATER SUPPLY WITHIN THE GREATER KUMASI

METROPOLIS

The Management of Ghana Water Limited (GWL), Ashanti Region, hereby notifies the public of the intermittent water supply within the Greater Kumasi Metropolis. The shortfall in the supply of potable water to the metropolis is due to the unstable power supply from the Electricity Company of Ghana (ECG) to the Barekese Water Treatment Plant (WTP) and the Achiasse Booster Station.

The Barekese and Owabi WTPs as well as the Achiasse Booster Station have been experiencing power outages in the last few weeks. This has made it difficult to produce and transmit potable water to our cherished customers and the public.

Management of GWL has notified ECG of the challenges and counts on ECG to improve on power supply to all GWL installations in the region to enable GWL serve the metropolis with the constant flow of water.

Management regrets the inconvenience the challenge may have caused and advises the judicious use of water available until the situation is averted.

Management of GWL assures the public that supply will resume immediately after power is restored by ECG.

The public and essential service providers are entreated to contact the following numbers in times of need: 080040000 (Toll-free on Vodafone lines), 03022218240, 0207385088, 0207385089, 0207385090 and via GWL WhatsApp lines (0555123393, 0555155524)

END.
