## NAHSAG supports the Demonstration of Unemployed Health Graduates and Rotation Nurses and Midwives

The National Health Students Association of Ghana (NAHSAG) stands united in support of the upcoming demonstration advocating for the rights of unemployed health graduates, rotation nurses and midwives across the nation.

We are by this communiqué urging the government to prioritize expediting financial clearance postings for unemployed health graduates who have been waiting for employment since completing school in 2020.

Additionally, we want to call for the timely payment of the delayed eight (8) months rotation nurses and midwives allowances.

These dedicated professionals play a crucial role in our healthcare delivery system, and their welfare should be of utmost importance.

Should these issues remain unaddressed within the next 14 days, NAHSAG will be compelled to facilitate the process for unemployed health graduates to seek employment opportunities outside the country.

We want to call on all affected parties to join us in solidarity to address these healthcare menace.

Together, let us ensure that the voices of our healthcare professionals are heard and their rights are respected.
