

**NATIONAL PEACE  
COUNCIL**

## **A COMMITMENT TO PEACEFUL CAMPAIGN AHEAD OF THE 2024 GENERAL ELECTIONS**

1. We, the Functional Executives of Political Parties in Ghana, having met at the Oak Plaza Hotel, Accra at the instance of the National Peace Council, with the objective to secure our total commitment to peaceful campaign ahead of the December 2024 general elections in Ghana;
2. Recollecting the issues of personality attacks in the media, name calling, insults, and other indecent campaign practices in the wake to successive elections in Ghana and its harmful effects of violent outbreaks and clashes among political party activists;
3. Taking cognizance of the role of the National Peace Council in preventing, managing and resolving conflicts and building sustainable peace in Ghana;
4. Conscious of the fact that the struggle among the various political parties and the Presidential and Parliamentary Candidates over the votes of the people in the impending December 2024 elections have continued paradoxically to generate fear and apprehensions among the very same people whose votes we seek for;
5. We, being very determined to avoid a situation in which the elections could degenerate into violence and therefore draw our beloved nation into the throes of disruption and destruction as has been witnessed in a number of other African countries, **WE DO HEREBY COMMIT TO PEACEFUL CAMPAIGN DEVOID OF PERSONAL ATTACKS, NAME CALLING, INSULTS, PERSONALITY ATTACKS AND OTHER INDECENT CAMPAIGN PRACTICES. AS FOLLOWS:**
  - That we hereby commit ourselves and supporters to a peaceful campaign towards the general elections in December, 2024.
  - That we will campaign focusing on our promises of planned programmes and projects for the people of Ghana for which they should elect us rather than verbal abuse, insults and attacks of other political parties and incitement of our followers to act in any negative manner.
  - That we are committed to the use of legal processes and laws to deal with unlawful acts and actions by our members prior and political opponents before, during and after the elections.
  - That we hereby take a definitive stand against electoral violence, impunity and injustice in our beloved nation Ghana because these acts are detrimental to the peace, welfare and sustained development of the people of Ghana.

NATIONAL PEACE  
COUNCIL

- That we shall conduct our political campaigns in such a manner that the ability of the Police or other security agencies to perform their roles and duties in enforcing the law and maintaining law and order will not be hindered whatsoever whether at the polling station, constituency, community, district, regional or national levels.
- That we shall intensify and expand the scope of our civic and elections education activities such that the awareness and understanding of our members of the relevant electoral laws and the normative codes of conduct will improve. We shall also see to the strengthening of the policy and institutional capacities of our political parties so that internal compliance with the electoral laws and normative codes of conduct ratified by our political parties will be stronger and become widespread.
- That we pledge to hold ourselves mutually accountable as peers, especially, in promoting effective political leadership of the campaign against electoral violence, impunity and injustice and work for sustained peace to advance and consolidate Ghana's democracy.
