PRESS RELEASE

NATIONAL HOUSE OF CHIEFS URGES GHANAIS TO BE LAW-ABIDING

The National House of Chiefs urges all Ghanaians to uphold the law, especially with the **December 7th** presidential and parliamentary elections approaching. Ghana proudly boasts of three decades of democratic elections and peaceful transfer of power, earning recognition as West Africa's beacon of democracy.

The House emphasizes that all citizens should refrain from undermining democracy through electoral manipulation, violence, or media coercion. Instead, stakeholders should promote free, fair and transparent elections. The Electoral Commission and its related agencies must discharge their duties impartially.

In a related development, the National House of Chiefs condemns illegal mining with its environmental and health hazards, and henceforth Nananom declare the practice banned throughout their lands in Ghana.

Nananom hereby resolve to seize, destroy any machinery, equipment, tools, implements etc. use in furtherance of the act.

Nananom further undertake to liaise with law enforcement agencies to prosecute all offenders.
